Aviation Insurance
Premier Products, Services and Solutions
- A Comprehensive View of Risk Control Services
Old Republic Aerospace, Inc. (ORAE) continually seeks to provide the highest quality safety consulting services to our insurance customers as part of our Risk Control Service Program. Every aviation business seeks to maximize profits, while controlling costs and improving customer service.

Our team of risk control specialists stand ready to help with advice, training and mentorship. Our primary goal is to make our insureds’ operation safer by guiding them in methods and practices proven to control the risks associated with their business environment. Risk control can help whether our insureds’ work is public or private, it may involve airport management, corporate flight operations, air charter, agricultural aerial applications, maintenance and repair, and service/support for both airplanes and helicopters.

We also offer personalized risk management programs to assist in mitigating loss exposures, controlling costs and improving processes in conjunction with our claim services.

**Customized services to meet your risk control needs.**

- On-site safety and risk management surveys
- Assessment of ramp, maintenance and flight activities
- Review and assist in emergency response plan development
- Assessment of training programs and procedures
- Provide safety training related to workers’ compensation, property and liability exposures
- Evaluation of accident investigation and “near miss” programs
- Provide hazard analysis training and risk mitigation training
- Provide safety data analysis and performance metrics of workers’ compensation losses
Meet the Team.

Ray Wall - Risk Control Manager / Western Region
rwall@ORaero.com
Ray is an aviation risk control professional with over 30 years of experience who has conducted safety engineering evaluations worldwide. He is based in Dallas, TX and is responsible for ensuring that ORAE insureds comply with safety and workers’ compensation regulations. Ray provides onsite safety services for each client assigned and recommends methods by which the insured can improve their safety procedures. He also actively participates with many aviation safety organizations.

Prior to joining Old Republic Aerospace, Ray worked at Omniflight Helicopters, Inc. where he was responsible for regulatory compliance, risk management, operations and safety. Previously, at Air Logistics / Bristow Group, he was responsible for the western hemisphere quality and safety activities and worked on global industry initiatives to reduce accidents with the International Helicopter Safety Team (AHS, HAI, etc.). Ray instructed Federal Aviation Administration, military and civilian personnel in accident investigation at the Transportation Safety Institute. He was a federal accident investigator with the National Transportation Safety Board and responsible for worldwide aviation risk management programs while with USAIG.

Ray holds a Bachelor in Aeronautical Sciences and is a graduate of the U.S. Army’s Safety Center, the NTSB’s Accident Investigation School and the National Aviation Safety Academy. He has his Commercial Pilot’s Certificate with instrument ratings in both airplanes and helicopters, single and multi-engine with over 6,000 hours of flight experience and served in the U.S. Army for 12 years.

Brad Johnson, MS, ARM - Risk Control Manager / Eastern Region
bjohnson@ORaero.com
Brad is an aviation risk control professional with over 15 years of experience and is based in Nashville, TN. He is responsible for ensuring that ORAE insureds comply with safety and workers’ compensation regulations. He provides onsite safety services for each client assigned and recommends methods by which the insured can improve their safety procedures.

Prior to joining Old Republic Aerospace in 2017, Brad worked as the director of safety and loss control at AIG Aerospace where he was responsible for providing loss control services in the areas of workers’ compensation, general liability and property exposures. His primary work consisted of ground handling, air cargo, airports, airlines, maintenance, FBO, manufacturing and corporate flight departments. Before that, Brad was a loss prevention consultant for Liberty Mutual where he specialized in workers’ compensation for general industry, industrial hygiene, transportation and commercial liability.

Brad holds a Bachelor of Science in Biology and a Master of Science in Occupational Health and Safety from Middle Tennessee State University. He is a member of AOPA and is an Associate in Risk Management (ARM). In 2007, Brad was honored with the Flight Safety Foundation President’s Citation Award for Outstanding Service for his work on their Ground Accident Prevention program. He also is an accredited NATA Safety 1st Ground Auditor and holds a private pilot certificate.
Old Republic Aerospace - Premier Product Offerings

**Business Aircraft / Corporate Aviation**
Old Republic Aerospace can provide an extensive set of aircraft liability and physical damage coverages for today’s general aviation aircraft. Aircraft physical damage limits up to $35 million and liability limits of up to $300 million are available for qualified accounts. Coverages can be combined to match an insured’s unique set of risks.

**Commercial Aviation**
We offer insurance plans for a wide range of commercial aviation businesses including UAS operations, privately owned airports, MROs, FBOs, charter operators, university flight programs aerial photography, sight-seeing, aircraft repair and service and fueling operations just to name a few.

**Workers’ Compensation**
Our highly skilled, in-house workers’ compensation team provides comprehensive workers’ compensation coverage and claims service to a wide variety of aviation-related operations. Program offerings include guaranteed cost and loss sensitive programs, repatriation expense for foreign travel, sliding scale dividend programs and the NBAA Workers’ Compensation Insurance Program - all NBAA member companies are eligible.

**Manufactured Products**
We can offer an aviation manufactured products liability policy protecting a manufacturer against third party legal liability arising from physical damage or bodily injury as a result of an alleged aviation product failure or defect. Liability limits are available up to $100 million CSL including property damage, bodily injury and grounding liability.

**Airlines**
The Old Republic Aerospace in-house underwriting and claim experts are highly trained, experienced and well positioned to serve the airline industry. We offer a comprehensive range of products and services for all airline operations.

**Airports and Government Entities**
Our airport and government entity team has the expertise to underwrite comprehensive and competitively priced products. We provide specialized industry-specific products and services for commercial and general aviation airport operators and government/ municipal aircraft (fixed-wing and rotor-wing).

**Agricultural Aviation**
We can provide a full array of aircraft physical damage and liability coverages designed for aerial applicators operating piston or turbine powered aircraft, fixed-wing or rotor-wing. In addition, we offer an agricultural aviation policy form - a broad, updated policy form for aerial applicator coverage.

**Light Aircraft / Pleasure & Business**
In addition to Hull, Liability and Medical Expense coverages, we offer a broad array of contingent coverages for light aircraft including use of non-owned aircraft, hurricane relocation expense reimbursement, search and rescue, runway foaming, extra expense for renting a replacement aircraft and much more.

**Specialized Claims Services**
Our dedicated, in-house claims specialists have extensive experience in managing all facets and types of aviation claims. It is our mission to act with the utmost professionalism while serving to protect the interests and integrity of our clients by promptly and fairly resolving claims. We strive to maintain and enhance the public’s impression of our policyholders, permitting our clients to return to their normal operations as rapidly and seamlessly as possible.

**Risk Control Services**
We assist our clients in mitigating the frequency and severity of losses through risk control, a comprehensive service provided by Old Republic Aerospace. Our in-house risk control professionals help our clients improve safety, reduce risk exposures, control loss costs and facilitate programs to enhance operational performance.
